CAREER SUMMARY

Versatile Full-Stack Developer with hands-on experience in web, mobile, and backend technologies. Skilled in React, Angular, Node.js, and .NET APIs, with expertise in modern UI frameworks like Tailwind CSS. Adept at developing scalable solutions, integrating APIs, and implementing AI-driven applications. Seeking a challenging role to contribute to dynamic projects and further enhance technical expertise.

EXPERIENCE

- Edsy Tech, Ludhiana (Oct 2024 – Present)

Role: Software Developer

- Developed responsive web applications using React, Angular, Bootstrap, and Tailwind CSS.
- Integrated third-party services such as SMTP, Twilio, and Razorpay payment gateway.
- Collaborated in building scalable front-end solutions and optimizing performance.
- Contributed to backend using Node.js, .NET APIs, and MySQL database.
- Designed and implemented AI-enabled mobile apps using Android Studio (Java) and React Native.
- Integrated real-time chat functionality for user communication.

- Hidecible Office System (3 Months – Internship)

Role: Web Developer Intern

- Built small-scale applications and enhanced UI/UX using React, HTML, CSS, and Bootstrap.
- Worked with Git for version control and collaborated in a team environment.

TECHNICAL SKILLS

Frontend: React, Angular, JavaScript, HTML5, CSS3, Bootstrap, Tailwind

Backend: Node.js, .NET APIs, ASP.NET MVC, PHP (Basics)

Database: MySQL, MSSQL

Mobile App Development: Android Studio (Java), React Native

Integrations: SMTP, Twilio, Razorpay, RabbitMQ

Deployment: IIS Server, Netlify, Render

Tools: Git, GitHub, Postman, PowerApps, SharePoint

PROJECTS

- AI-powered Study App – Developed using Android Studio (Java) & React Native; features content recommendations using AI.

- E-Commerce Website – Built using React & Node.js; integrated Razorpay for secure payments.
- Real-Time Chat Application – Created using React + Node.js with WebSocket integration.
- Weather Application – React-based app using OpenWeather API for live forecasts.
- 3D Portfolio Website – Built with React and Three.js for interactive visuals.
- Attendance & Leave Management System – Designed using Microsoft PowerApps for HR automation.
